The deposit was accompanied by: __ a scientific description __ a proposed taxonomic description indicated above.

The deposit was received April 4, 1991 by this International Depository Authority and has been accepted. A request to convert the deposit to a deposit under the Budapest Treaty was received on April 3, 1992.

AT YOUR REQUEST:

X We will inform you of requests for the strain for 30 years.

The strain will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strain.

If the culture should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace it with a living culture of the same.

The strain will be maintained for a period of at least 30 years after the date of deposit, and for a period of at least five years after the most recent request for a sample. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the culture cited above was tested April 6, 1992. On that date, the culture was viable.
